

Soul Readings with Mark Borax

Journey to the center of the soul

Mark Borax is a master astrologer who explores your innermost nature in ninety-minute readings. Each session is a transformational journey through the unique landscape within you. When you become aware of yourself on a soul level you contact your strongest foundation. You develop inward power to confront the external challenges of life. You are equipped to meet the world from a position of great strength.

Your soul nature is the deepest part of you. Its energy permeates every cell of your body. It was there before you were born. It will continue after you die. Your soul is a fully developed being, even at birth. It came from eternity to achieve some purpose only you are capable of. This soul-level purpose is what Mark investigates when he reads your chart.

What is Soul Level Astrology?

Soul Level Astrology incorporates a visionary take on the zodiac Mark learned from Master Astrologer Ellias Lonsdale. "The most important thing you need to be a great astrologer," Ellias said at their initial meeting, "is to never think you know what Virgo and all the other Signs are, but be willing to find out all over again what Virgo is through that new Virgo sitting in front of you."

In a seven-year apprenticeship, Ellias (who studied with renowned astrologers Marc Edmund Jones and Dane Rudhyar) taught Mark to see beyond traditional astrology into a whole new zodiac. Their teachings formed the core of a mystery school under the redwoods of northern California. Some key teachings from the school have been published as the "Inside Astrology" series by North Atlantic Books. The story of the school appears in Mark's book, *2012: Crossing the Bridge to the Future*, by Frog Books.

The astrology Mark uses reaches across time and space to bring the stars down to earth. Regardless of what familiarity you have, if any, with your natal chart, Mark will find a new angle. He communicates clearly with young children, teenagers and old veterans of astrology. His readings are vibrant, spontaneous and alive.

"I know very little about astrology but your reading touched me deeply. It described precisely who I feel myself to be inside. It was an affirmation of my basic essence. I feel tremendously understood."

— Leona Markman, Management Consultant,
Santa Cruz, California

"This was truly the most profound and transformative reading I've ever had. No one has ever articulated so clearly the key dynamics of my present situation and current lifetime."

— B.P., Musician, Eugene, Oregon

What will I get from a reading?

Each session provides a map of your being, your psyche, your past and future. Like a psychic sleuth Mark tracks through this territory to locate:

- ⊙ **The reason you were born.**
- ⊙ **Your key strengths and weaknesses.**
- ⊙ **Your relationship needs.**
- ⊙ **The thrust of your reincarnational journey from life to life.**
- ⊙ **Karma and destiny cycles that shape your growth.**

The birth chart is an inexhaustible resource. Clients who wish to go further return for advanced work which reveals deeper insight. Advanced sessions tap the chart beyond the chart – the pre-natal chart from ancient Egyptian astrology, which reveals your Inner Sign different from your Sun Sign.

"I'll never forget that first incredible reading. A month ago my world shifted suddenly and radically. I lost my definition. Your message actually brought me to tears. Your clear sight enabled me to see the deepest innermost parts of myself more clearly. Your dedication and devotion liberated me into more fully being who I am."

— Shelly Spencer, Journalist, Hawaii

"I want to communicate with you the impact of our session. Within the hour of getting off the phone, exactly what you had said had occurred – you opened a direct connection to my soul. I don't know how else to say it."

— J.T., Transformative Therapist, Friday Harbor, Washington

For radical breakthrough, schedule the maximum session: a 3-day Intensive. 5-hour power sessions three days in a row, for \$ 2,000.

A Note From the Celestial Mechanic

“It’s my joy and inspiration to make a living reminding people who they are. Each horoscope is a magic portal where many dimensions meet. No one is limited by their astrology chart! When you map your astral DNA you have a springboard to leap off from, a structure to improvise within. Together, you and destiny create a new chart. When I gaze at a birth chart I see another chart hovering – an energy sphere. I do the best I can to put the language of this other chart into words. Because the reading is aimed at who you’re becoming, it can take many listenings to the tape of our session to reveal its full meaning and power. Many people transcribe the tape for easier reference. Soul-level readings plant seeds that sprout later throughout the rest of your life. It takes a full yogic stretch to encompass our destinies. I look forward to sitting with you in deep communion and discussing your celestial mechanics. In such a way, little by little, we tune up the planet.”
